WORK EXPERIENCE

Web Developer
Freelance

04/2020 - 11/2022

Achievements/Tasks

- I spent over two year bringing various projects to life, including e-commerce platforms, corporate portals, CRM systems, business card websites, and landing pages.
- Primarily specializing in frontend development, I also successfully tackled backend tasks using technologies like Node.js and PHP, along with various frameworks and content management systems.
- My experience encompasses active collaboration within development teams, where I not only executed my responsibilities but also engaged with designers, backend developers, and clients to ensure successful project delivery within deadlines. This experience led to team formation, where each member contributed, resulting in over 100 positive reviews and loyal clients.
